

VADsoft

We are a Construction Technology Company, providing Design & Build, VDC, Automation and Software development services to AEC (Architecture, Engineering & Construction), Real Estate, Steel & Manufacturing Industries across India, UK, Europe & USA. We are a team of experienced and talented individuals who have a penchant for doing things differently, whilst maintaining highest levels of quality and proficiency in work. Our solutions are innovative and add value to our client's businesses and assist them in achieving business excellence in their respective domains.

Using technology, we automate processes for design, engineering and construction and any operations processes easy to handle, efficient, trackable, and accurate.

Vision

Implement Advanced Technologies in Architecture, Engineering & Construction.

We believe that using BIM, Automation & Software development can transform the construction industry. It can enable faster, safer and accurate construction with precise quality.

Values

Quality – We strive for quality in everything we do, quality is our capability.

Trust – Trust is must, we strive to deliver what we promise to win trust.

Innovation – We are curious, adventurous, and creative. We encourage innovation and willing to take risks.

Passion -We are passionate about our work, and we love what we do.

People first & Teamwork – We cherish our people and get them a culture to thrive, together, we achieve more.

Team

Veerendra Khot
Founder

Veerendra is construction technology enthusiast and an experienced project and programm management professional having 20+ years experience in the construction industry. He has worked in UK with top consultants like Currie and Brown, Mace and WSP .

Shreya Gupta
Architectural Design Head

Shreya has an Architectural degree and a Mater's degree in Urban Design from IIT Kharagpur & having worked for more than 15 years in the design industry she has designed structures of various scales across Inda.

Nikita Shinde
BIM Head

Nikita has 12 years of experience in delivering BIM projects across sectors such as health care, residential, commercial, education, hospitality and pharmaceutical. Quality and time assurance are the key aspects of her overall focus in handling operations. She has successfully delivered 50+ projects

Sachin Wadkar
Project Execution Head

Civil Engineer with 18 years of Experience in delivering varied sized projects in residential, commercial, industrial and interior fit out. He has delivered more than 40 projects with excellent quality and customer satisfaction

Zarna Barday
Founder

Zarna Barday is a Professional Engineer and IEI Chartered Engineer with 15+ years of experience in the USA and India. Expert in structural design across diverse materials, land development, and infrastructure projects. Proven ability to manage the full project lifecycle from conceptual estimates to construction shop drawings across residential, commercial, and industrial sectors.

Pooja G Rahti
MEPF Design Head

A dynamic professional in electronics, telecommunications, and electrical engineering. She has 14 years of experience. She leads design teams on high-profile projects, from industrial giants like Coca-Cola to global infrastructure developments. She is recognized with The Real Woman Award for her contributions to MEP consultancy
